

ASSISTIVE,  
INTERACTIVE  
& SENSORY  
TECHNOLOGY

**Link Assistive is an Australian supplier of Assistive, Interactive and Sensory Technology for individuals with physical, cognitive and developmental disabilities.**

Our team of assistive technology, mounting and sensory specialists includes Speech Pathologists, an Occupational Therapist, IT and Repair Specialists and Administration and Logistics staff.

Our products are designed for accessibility and optimal user experience. We work with therapists and their clients to ensure compatibility with the user's needs and existing technology systems.

We offer the full range of Tobii Dynavox eye gaze devices, purpose-built touch devices and speech tablets. For optimal device positioning, we provide the REHAdapt range of mounting solutions for wheelchairs, tables, beds, recliner chairs and more. Our sensory and interactive technology is sourced from world leaders Sensory Guru and BJ Live. We are the Australian supplier of the Magic Carpet and Magic Mirror from Sensory Guru; and the SHX system from BJ Live.
